

Parsons' Paper Company Workers Database

Lorraine Oloo and Camden Heafitz

2023-02-17

Introduction

Mining the History of Holyoke (STAT210) is a class at Amherst College with a mission statement of curating and publishing a piece of Holyoke's history and making it accessible to the town's people.

One way our class has begun this journey is by analyzing an old payroll registry found in an attic in Holyoke and now available in the archives of the Holyoke Public Library History Room. This register tracked pay for employees who worked at the Parsons Paper Mill in Holyoke, Massachusetts (the "Paper City") in the 1860s.

It has been remarkable to track down so much history as each page of this nearly 400 page registry has upwards of 30 names, and each name has its own story worth telling.

In the registry, we can see one's name, number of days worked, their wages, whether or not the worker had rent or board due, the final balance owed, and signature (see Figure 6). See [here](#) for an interactive display of the register.

Workers' Summary

We took on the task of finding information about some of the employees at the paper mill using the database Ancestry.com.

On page 259, we found two women with the same last name which was common back then but still we decided to search for one of them on Ancestry.com.

Their names were Lucy and E.A. Allen. When we searched for Lucy, we found that E.A. stood for Eliza Ann Allen—they were sisters! (see Figure 8)

Lucy was born in Massachusetts in 1842 and Eliza Ann was her older sister born in 1841. They lived in dwelling 42.

Their father's name was Job Allen and their mother was Anna Allen.

Job was born in England and moved to the United States sometime before 1841.

Like his daughters, he too worked at the Parsons Paper Company.

We found record of him first on page 3. (see Figure 9)

Anna Allen stayed at home.

This was a common life for a working-class family in Holyoke, Massachusetts in the 1860s.

From what we were able to gather, Eliza and Lucy were finishers meaning they helped with finalizing the paper making process.

We made this assumption when we found Lucy's name on Page 2 under the label "Finishers."

See (Figure 10)

Eliza and Lucy were paid not by the number of hours or days they worked but rather the number of reams they finished.

We can see on page on page 2 that Lucy finished 756 reams of paper for the month of January in 1861.

Eliza's name first appeared in 1862 on page 34 right below her sisters name, one year after her sister first started working. (see Figure 11)

Coincidentally, they were one year apart in age.

Perhaps their father Job did not want his daughters to work until they were 20 years of age.

It seemed that the Allen family had trouble finding a permanent residence as we found a number of addresses reported across different resources.

In 1869, the Holyoke city directory shows that the Allen family lived on Dwight Street.

Ancestry.com showed that the Allen family lived in dwelling 42 with no street name reported in 1870.

(see Figure 4)

We were able to follow Lucy's places of residence in several years after 1870 until her death on May 11, 1893 in Holyoke, MA. Here is a map Figure 12 that shows Lucy's places of residence.

It is also worth noting that Lucy, Eliza, and Job worked for roughly the entire decade at the mill suggesting the daughters were not pursuing any form of education in this period. Lucy also appears to have continued working in the PPC mill until her death.

It is difficult to determine if the Allen family's literacy due to inconsistencies in signatures.

Some signatures have "X" in them while others do not, and the handwriting is different across the decade suggesting they multiple people could have been signing for them.

Conversely, we were able to find records on Joseph C. Parsons; the founder of the Parsons Paper Company.

(see Figure 7)

Born on February 6, 1814, in Northampton, Hampshire County, Massachusetts to Lydia and Justice Parsons, Joseph Clark Parsons was a local businessman who became very successful after founding his mill.

He married Lucretia Hoyt Parsons and had three daughters; Catherine Turner Taft, Fannie Colton Parsons, and Elizabeth Hoyt Parsons.

We found that Parsons lived in house 22 of dwelling 165 on Suffolk street which was quite close to his Mill.

This was surprising because we expected him to live in the upper-class district because wealthier people lived in hills above sea level.

If we continued our research, we would aim to find descendants of the Parsons Paper Company that are still living today.

Technical Appendix

First, we accessed the Amherst College Library account for Ancestry.com.

The screenshot shows the Amherst College Library website. At the top, there's a purple header with the text "Amherst College Library". Below it is a grey navigation bar with links: "Library Home", "Services & Requests", "Find Resources", "About the Library", "Archives & Special Collections", and "Hours & Contact". Underneath the navigation bar, the URL "Library / Research Guides / American Studies Research Guide / Find Primary Sources" is visible. The main content area is titled "American Studies Research Guide". On the left, there's a sidebar with several categories: "Home", "Find Background Information", "Find Articles", "Find Books", "Find Media", "Find News Sources", "Find Primary Sources" (which is highlighted in blue), "Primary Sources", "Tip: What are primary sources?", "Writing and Citing", "Find Related Guides", and "Research Librarian". The main content area is titled "Primary Sources" and contains a list of collections: "North American Indian Thought and Culture", "Ancestry Library Edition", "Archives of Sexuality & Gender", and "Sixties: Primary Documents and Personal Narratives 1960-1974". Each item has a brief description and a link.

Figure 1: Once on the Amherst website, we clicked the link to Ancestry Library Edition

The link to Amherst's access to ancestry website is [here](#).

Here is how the ancestry website looks at a first glance:

The screenshot shows the Ancestry.com search interface. At the top, there's a black header with the "ancestry library" logo, "Home", "Search" (which is highlighted in yellow), "Message Boards", "Learning Center", "Charts and Forms", and "New Collections". To the right of the header, it says "AMHERST COLLEGE". Below the header, the word "Search" is centered. There are two input fields: "First & Middle Name(s)" and "Last Name". Below these fields, there's a section for "Place your ancestor might have lived" with fields for "City, County, State, Country" and "Birth Year". To the right of this section, there's a "Search" button and a "Show more options" dropdown. To the right of the search form, there are two columns of "Explore by collection" and "Explore by location". The "Explore by collection" column includes categories like "Birth, marriage & death", "Census & voter lists", "Immigration & travel", and "Military". The "Explore by location" column shows a map of the United States with various cities marked with blue pins. The map includes labels for states like Washington, Oregon, Idaho, Montana, Wyoming, Colorado, Nebraska, Kansas, Iowa, Missouri, Illinois, Indiana, Michigan, Ohio, West Virginia, Kentucky, Tennessee, Mississippi, Louisiana, Arkansas, Texas, New Mexico, and California, along with Canadian provinces like Quebec, Ontario, Manitoba, Saskatchewan, and Alberta.

Figure 2: Ancestry.com 'search' screen

By searching for a name and a place, (Holyoke, Hampden, Massachusetts), we were able to find census information from the 1800s and track down paper mill workers.

The number of names that appear in first search. We used educated guesses to select the most appropriate person.

The screenshot shows the Ancestry.com search interface with the query "Joseph Clark Parsons". The search results page displays 1-20 of 123,945 results. The results are categorized by collection, with the top result being the "U.S. Find a Grave™ Index, 1600s-Current" entry for Joseph Clark Parsons, showing his birth date (6 Feb 1814), death date (12 Mar 1886), and residence (Holyoke, Massachusetts). Below this are entries from the 1880 and 1870 United States Federal Censuses, and a record from the 1870 United States Federal Census for Joseph C. Parsons.

Figure 3: Initial search results

The amount of information we could find on each worker varied from name to name but in general, we were able to find birth year, birthplace, spouse, children, parents, occupation, and address. Here is what Lucy and Eliza Ann's profiles looked like on Ancestry.com

We then compiled these results into a spreadsheet linked below.
